PARIS, Feb. 22.—Spurred by the menacing situation arising from Reichsfuehrer Adolf Hitler's Nazi expansion in Europe, the French government today approved extraordinary appropriations for military defense.

The cabinet adopted a proposal of Defense Minister Edouard Daladier for establishment of an autonomous sinking fund apart from general treasury funds to meet defense expenditures from March 1 onward.

A board of directors to handle the fund was appointed, including the minister of war and marine and representatives of the senate and chamber of deputies.

Move Is Supported
The council of ministers voted unanimously for this "preparedness" move, but fears of an eventual cabinet split were expressed as a result of Hitler's fighting speech to the Reichstag Sunday and the resignation of Anthony Eden as Britain's foreign secretary.

PA NEW OBSERVES

It is bad enough to be involved in an automobile accident, but Mrs. M. A. Cook, of Croton avenue, in addition to receiving injuries last Friday evening, when her car was struck by another vehicle on Croton avenue, at the North street bridge, had the misfortune to have someone steal her pocketbook in the excitement.

George Washington's birthday anniversary is being quite generally observed in this city today. Many institutions are closed for the holiday.

Tripping along South and North Crawford avenue yesterday was a lone squirrel, which seems to act as if that territory is its particular domain. It goes along without much fear of passers-by. It gets up on the porches, on the posts, runs along the railings and on the window sills. Residents say it comes to the back porches, and "bums" something to eat, and they consider it their pet. Somebody was thoughtful enough to erect a small platform on a tree, where three cobs of corn were placed for the squirrel, but today it went to the tree and found a fat mother Hubbard that the cobs were bare, so it is up to "somebody" to make a replacement.

Pa News found a spring-like bouquet of forsythia and pussy-willow in the library this morning. Miss Sterling revealed that these branches had been "ferred" by being brought inside, to a warm place, where the buds will open of their own accord.

Many persons have been bringing books to the library since its closing, in an effort to return them. As this institution is now in the midst of moving they are unable to handle the return of books, and will not accept any until the building is opened within a few weeks.

VIENNA, Feb. 22.—A strict ban on all political meetings and parades in Austria, except those of Chancellor Kurt Schuschnigg's fatherland front, was clamped down today as a result of savage clashes between Austrian Nazis and their foes.

The measure was decreed as anti-semitic riots and other disorders swept Vienna and Graz in the wake of Chancellor Hitler's Nazi coup,

which deposited followers of Der Fuehrer in key Austrian government posts.

Outbreaks Occur
The outbreaks occurred when thousands of Nazi celebrating what they call Hitler's "conquest" of Austria, congregated in streets and public squares. Fights between the Nazis on one side and fatherland front members, socialists and communists on the other resulted in scores of injuries.

New Federal Tax Bill To Reach House During Coming Week

(International News Service)

WASHINGTON, Feb. 22.—The administration's new tax bill, which revises the undistributed profits and capital gains taxes in an effort to spur business, probably will be called up in the house next week.

After the Ways and Means committee completed work on the bill with the exception of odds and ends, Rep. Vinson (D., Kentucky), chairman of the subcommittee which drafted it, said the measure is virtually complete.

The committee, after reading the bill and smothering Republican opposition, adjourned today to permit drafting experts to complete their work.

New Special Penalty Tax
The proposed special penalty tax on family-owned and closely-held corporations, which do not distribute all of their earnings, was adopted by a vote of 15 to 10. Three Democrats joined seven Republicans in opposition.

Under this tax, a 20 per cent tax would be levied on undistributed profits of family and closely-held corporations earning above \$75,000 a year, with a series of exemptions. The tax was assailed in a radio (Continued On Page Two)

Flood Threat Is Increasing In Arkansas

(International News Service)

Sundag crews today guarded weakened levees along Arkansas rivers as a forecast of rain brought threats of more serious flood conditions.

While rampaging rivers in three other states, Missouri, Oklahoma and Texas were reported receding, the Arkansas river threatened to wash away sandbags and levees at Pine Bluff, Morrison on the White river also was a "danger spot."

The gorged rivers of the four states already have driven thousands of persons from their homes. Red Cross workers set up relief stations in the afflicted areas, while national guard planes circled over inundated Arkansas areas in search of marooned families.

Red Cross officials estimated more than 1,500 families were homeless in Arkansas. A forecast of more rain was made while the Arkansas river at Little Rock reached a 26-foot stage, three feet above flood levels.

HYDE PARK, N. Y., Feb. 22.—With world attention focused on President Roosevelt and his reaction to the European crisis, indications today multiplied that the chief executive might use Washington's birthday as a vehicle to re-state American foreign policy.

This afternoon he was receiving accompanying reporters in his Hyde Park study for the customary Tuesday press conference. There were suggestions that the president might make some observations on the troubled state of world affairs and the increasing trend abroad toward Fascism.

Chamberlain Declares Weak Nations Cannot Depend Upon League For Support

By KINGSBURY SMITH

LONDON, Feb. 22.—Charging the British government with following a policy of "anarchy and war," the laborite opposition moved a vote of censure against Prime Minister Neville Chamberlain today.

Arthur Greenwood, laborite MP, opened the onslaught against the prime minister for his stand in favor of immediate negotiations with Italy which led to resignation of Anthony Eden as foreign secretary.

"The fate of the world," he said, "rests in the trembling hands of Mr. Chamberlain. The government has abandoned the league of nations and the principle of collective security."

Anarchy And War
"It is following a method that leads to anarchy and war," Mr. Chamberlain, has sneaked round into the pirates' lair. His government has scuttled through the back door of a dictatorship state to make a deal behind the backs of other friendly countries."

Before Greenwood began his savage attack, Chancellor of the Exchequer Sir John Simon had assured the house that the government is not considering extension of loans to Italy.

Just before the house assembled, the national council of labor issued an appeal for all labor organizations in support of its principals.

SHANGHAI, Feb. 22.—Killing 1,000 Chinese in a "preliminary battle," Japanese troops today captured the strategic city of Hwaining, 10 miles north of the ill-starred Yellow River, Japanese headquarters announced today.

The Nipponese were said to have seized the city in a sudden swoop that left corpses of defenders littered around the defense lines.

At the same time, reports reaching here via British Hong Kong said the Japanese had destroyed 150 villages situated along the Peking-Hankow railway in retaliation for the Chinese guerrilla warfare that has delayed the Japanese offensive in the Lunghai and other battle areas.

Report Guffey To Become Candidate For State Governor

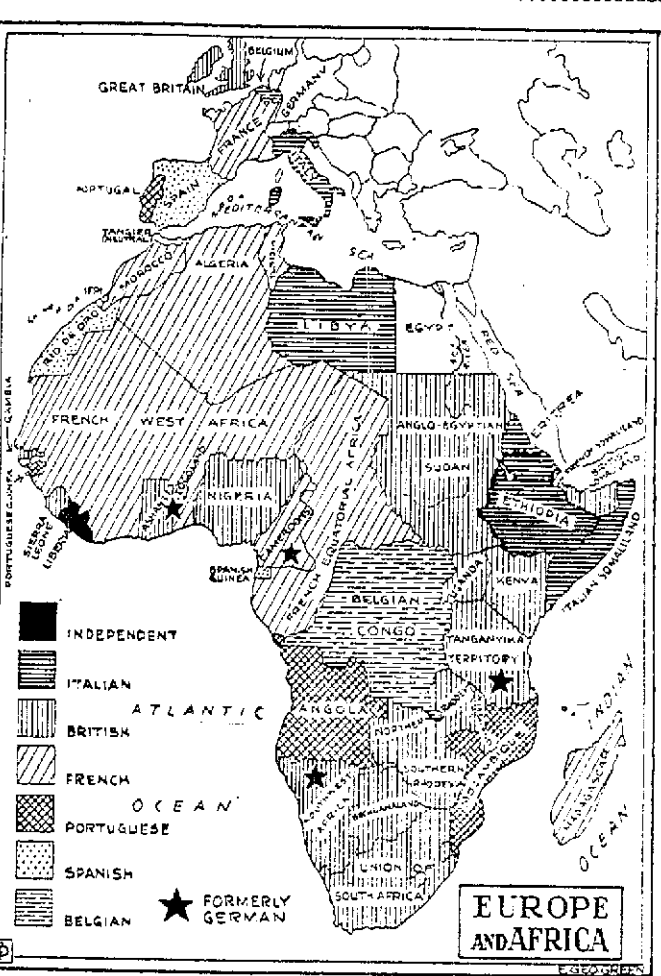

(International News Service)

HARRISBURG, Feb. 22.—Pennsylvania Democratic circles were thrown into a state of unprecedented confusion today by reports that U. S. Sen. Joseph E. Guffey will announce his independent candidacy for governor Thursday.

The advance reports of Guffey's alleged intentions came as State Chairman David L. Lawrence and Philadelphia leaders launched a concentrated drive to obtain state committee endorsement for Charles Alvin Jones, Pittsburgh, as the party's gubernatorial candidate.

Guffey's candidacy, observers here believed, would openly sever his long-time political tie-up with Lawrence. The two Western Pennsylvania leaders, generally considered to be inseparable political allies, reportedly came to the "parting of the ways" last Friday in a riotous breakfast conference at the executive mansion here.

Replace Original Wage-Hour Measure

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Feb. 22.—The administration's original wage-hour bill was discarded today in confidential bills distributed to members of the House Labor committee by Chairman Mary T. Norton (D., New Jersey).

The new measures, prepared after a series of conferences between Mrs. Norton, administration officials and members of congress, are designed to effect a compromise in national wage-hour legislation.

A second confidential measure submitted by Mrs. Norton would grant a federal wage-hour authority virtually blanket power to fix wages in low-paid industries and vaguely retains the 40-cent-an-hour minimum and 40-hour maximum work week principle of the Black-Connery bill.

The proposals aroused immediate opposition among members of the labor committee and cast further doubt upon enactment of a national wage-hour bill in the present session of congress.

The two measures will be thrust before the committee Thursday in an effort to find a compromise acceptable to congress.

A communique issued here stated, however, that Loyalist forces were "violently contesting every inch of ground in Teruel."

Fifteen hundred Loyalists were captured and 1,000 killed in the latest fighting, the Insurgents announced.

Wadlow Nears End Of Growth

(International News Service)

ALTON, Ill., Feb. 22.—Robert Wadlow, who is twenty years old, 8 feet 8½ inches tall and 465 pounds heavy today, appears to be nearing the end of his remarkable growth.

Records examined on the youthful giant's birthday today reveal that for the last four years his rate of growth has diminished by a half inch each year.

The youth, already the tallest human of authentic record, grew only 1½ inches during the past year. The preceding year he grew 2 inches. Before that 2½ inches. His father, Harold F. Wadlow, says between the age of 9 and 12 Robert averaged from four to five inches growth each year.

Physicians estimate that the young giant's growth will continue until he is 22 or 23. His size is attributed to over activity of the pituitary gland.

Robert's father expressed doubt today his son's height would reach 9 feet.

The feature of Robert's birthday celebration will be a party tonight attended by about thirty friends of the family. There will be a birthday cake, of ordinary size, and with twenty candles.

Chamberlain To Move For Truce With Mussolini

Prime Minister Believes British Parliament Supports His Attitude In Crisis

EDEN'S SUCCESSOR NOT APPOINTED YET

Chamberlain Says Course Does Not Mean "Peace At Any Price" Program

By KINGSBURY SMITH
International News Service Staff Correspondent

LONDON, Feb. 22.—Prime Minister Neville Chamberlain moved toward a truce with Hitler today, secure in the belief he had won the British parliament to his side of the argument with Anthony Eden, retiring foreign secretary, on how to deal with the rising tides of Nazism and Fascism.

Delay Appointment
It was stated Chamberlain intends during the next few weeks to maintain complete control of Anglo-Italian negotiations, and that he will delay appointment of a new foreign secretary for the time being. He may soon, however, appoint an undersecretary of state for foreign affairs, to replace Viscount Cranborne, who quit with Eden.

Eden left the cabinet because he could not agree with Chamberlain's contention that the time is now ripe for Britain to make a quick bargain with Italy aimed at easing the Mediterranean crisis and appeasing Europe.

Eden asserted that the cabinet was bending the knee to the dictators, Chamberlain, in their tense house of commons debate, charged that Eden's foreign policies were likely to lead to a war.

False Rumor Is Given Circulation King Carol Shot

(International News Service)

LONDON, Feb. 22.—A rumor reaching here from Rome that King Carol of Rumania had been assassinated caused a brief flurry of excitement today.

The rumor filtered into official sources in the Italian capital and news of it was telephoned here. A few minutes of checking by telephone with Bucharest and other capitals showed that it was without foundation.

Rumor sources in Rome which heard the rumor were at a loss to account for its origin and wide circulation. Direct contact with Bucharest disposed of it as groundless within a short time.

Wright Free Within Five Days

Insanity At Time Of Crime Given As Cause For Two Deaths

WRIGHT NOW SANE SAYS COMMISSION

(Associated Press Service)
LOS ANGELES, Feb. 22.—Paul A. Wright, admitted "white flame" slayer of his wife and John B. Kimmel is sane and will be freed within five days.

A superior court jury found him insane at the time he shot Evelyn McBride Wright and Kimmel to death in the Wright home last November 9, after seeing them in an assumed compromising embrace, but a jury commission yesterday ruled that he is sane now.

Under California law, Wright cannot be released from custody for five days, during which the question of his sanity is still subject to reopening.

The district attorney's office is expected to demand that Wright submit the question of his present sanity in a jury, or any "interested party" including relatives of the victims may make such a demand through the district attorney.

No Further Move Likely
However, the likelihood that such action would be taken was so small that apparently all Wright has to do is count the days until he goes free.

Wright was found guilty of manslaughter on his murder trial, but the same jury which returned this verdict returned a verdict a few days later which declared him insane at the time of the shooting.

Allegedly, the shooting was the result of a quarrel over the question of whether Wright was, as he claims, "unconscious" when he shot his wife and Kimmel.

All agreed that "if liquor had not been involved," the shooting might not have happened. This prompted Judge Ben Lindsey, conducting the hearing, to gain a promise from Wright that he would not drink again.

FRANCE ANSWERS HITLER WITH MORE FUNDS FOR DEFENSE

(Continued From Page One)

was expected shortly following a review of the situation by Premier Camille Chautemps. There was some belief the declaration might prove to be a strong warning to Germany to keep hands off Czechoslovakia, France's ally, and maintain the independence of Austria.

Any hitch in this program, it was felt, might compel French Minister Yvon Delbos to resign.

The cabinet may even consider whether, under Europe's new circumstances, it might not be opportune for the entire government to resign to pave the way for a cabinet able to effect a union among all the unopposed political parties of France.

Strong Statement Likely
But if this does not happen, a strong statement of policy will probably be forthcoming.

Delbos seemed to be the key to the French situation as related to Hitler's Reichstag speech and the entire European turmoil.

There were reports that socialist opposition in France to the stand taken by British Premier Neville Chamberlain—in favor of a deal with Italy and Germany—might lead to a cabinet crisis here should Premier Chamberlain decide to follow in Chamberlain's path.

Delbos, it was stated, shares the socialist disapproval of the course adopted by Chamberlain. Should his view clash with those of Chautemps, the foreign minister might be virtually forced to quit his office, just as Eden did in London.

Nevertheless, prayerfully hoping no such break would occur, government leaders drew up a new foreign policy with which to confront Hitler and Europe.

If finally agreed upon and announced, this policy will probably call for continued Austrian independence, inviolability of Czechoslovakia's frontiers and termination of foreign intervention in the Spanish civil war.

Chautemps was reported to feel that the situation demands a stiff attitude by France in opposition to further Nazi advances. If he sticks to this point of view, authorities here believe, a clash between himself, Delbos, and the socialists may be averted. But they feel that trouble will ensue should Delbos show a disposition to bargain with the Reich on Chamberlain's terms.

AUSTRIA BANS MEETINGS, RESULT OF NEW OUTBREAKS
(Continued From Page One)

tion, Dr. Alfred Seyss-Inquart, Nazi minister of the interior, broadcast an appeal to all browshirts in Austria to refrain from provocative acts.

Seyss-Inquart sought to dispel Nazi anxiety over the government ban on political demonstrations, urging his followers to remain calm and preserve discipline.

"This is needed in the interests of the entire German nation," he said. "Do not for the present wear the swastika and do not give the Nazi salute in public. Avoid provocation in every possible way and await further regulations."

Nazi boys and girls students staged a noisy anti-Jewish demonstration in Vienna in front of the university, but were prevented by police from molesting Jewish students. Nazis also tried to march on Jewish residential quarters, but were turned back.

Authorities prepared to cope with any disorders Thursday when Schuschnigg addresses the federal parliament. Schuschnigg is expected to reveal terms of his agreement with Hitler which placed Nazis in the government and brought amnesty to thousands of Nazi prisoners.

Tension was renewed a m.i.d. mounting rumors that Schuschnigg was resigning as chancellor, giving the Nazis an opportunity to exert even greater control over the government.

One of the most serious disturbances occurred last night at Graz, capital of the Province of Styria, where thousands of Nazis jammed the main square and prevented a Fatherland Front gathering from staging a counter-demonstration.

When the Fatherland Front adherents, their ranks swelled by Socialists and Communists, formed a parade in front of a memorial to the late Chancellor Engelbert Dollfuss, Nazis raided the meeting.

Police forced the Nazis back into the square and threw a cordon about it while the Fatherland Front parade was allowed to proceed, under protection of several thousand volunteer guards.

New Gospel Man In Harlem Today

Father Divine's "Heaven" Sold To Bishop Charles M. Grace, For \$20,000

FLOCK DIVIDED OVER ALLEGIANCE

(International News Service)
NEW YORK, Feb. 22.—There was a new shepherd in Harlem's heaven today and the angels turned this way and that way, torn between loyalty to Father Divine who terms himself "God", and curiosity regarding Bishop Charles M. Grace, trustee of the House of Prayer For All People.

It seems that Father Divine didn't own heaven—he only rented it—and heaven was sold over his head to Bishop Grace by the Union Square Savings Bank for \$20,000.

The heavenly flock, of course, was not included in the sale but today there was no place for the angels to go, no new heaven under Father Divine's auspices and so they remained, wide open for the conversion efforts of the new gospel man.

Offer Too High
Bishop Grace who comes from Washington and Baltimore has not announced any intent to wear the "peace"—it's wonderful! group to his standard but there he is in Father Divine's heaven and there are Father Divine's angels with no place to go.

Father Divine modestly declared that if his heaven had been sold it was because he had "willed" it. Apparently he did not think it necessary to advise his angels that "blessed purin heart", one of his group, had gone as high as \$16,000 in an attempt to buy in heaven but Bishop Grace had pushed his offer up to \$20,000.

Father Divine was not present when Bishop Grace, elegantly turned out in fur-trimmed coat, arrived to inspect "heaven" and so maybe the angels can be excused if they were impressed, bowed low and danced attendance on the new gospel man.

committed to a peace at any price policy or would buy appeasement at terms unacceptable to Britain.

"We are not prepared to make peace at any price," he declared. "We already have the essentials that must be conceded to us before we can make any agreement."

Revealing Mussolini had agreed to withdraw Italian troops from Spain, the prime minister said: "The settlement of the Spanish question that we want is a settlement that will leave the Spanish nation free of foreign interference."

"We Want Eden"
Anger flared among Eden's legion of admirers, however, over the situation that forced his resignation as foreign secretary. Crowds of them, even while Chamberlain was speaking, broke into the main parliamentary lobby and shouted: "Chamberlain must go! We want Eden!"

Police reserves ejected 200 milling, yelling women.

But Chamberlain, despite the clamor, won a "green light" signal from the parties controlling the majority of seats in parliament, assuring defeat of a vote of censure to be taken Wednesday night.

Meanwhile, Chancellor Hitler's renunciation of German territorial claims in the Far East viewed by Whitehall circles as a development of far-reaching importance to the United States as well as Europe.

Confirm Secret Deal
This portion of Hitler's speech, it was believed, may confirm a secret German-Japanese deal whereby the Reich has foregone her claims to the island groups in the Pacific in return for Japan's adherence to the Italo-German-Japanese anti-Communist pact.

In his speech, Chamberlain made it clear the promised British recognition of Il Duce's conquest of Ethiopia in return for recall of Italian forces from Spain. Then, turning to mention of his projected four-power pact among Britain, France, Italy and Germany, Chamberlain added:

"If the four great countries of Europe could settle their differences, it would be the greatest possible step that could be taken toward establishment of European peace."

This raid, the third attack on Canton in two days, was simultaneous with a Chinese announcement at Hankow by the Chiang Kai-Shek government that a protest had been dispatched to Germany against Chancellor Hitler's declaration that Germany has recognized Japan's puppet state of Manchukuo.

Police Prisoner Taken To Farm To Milk Cow Today
Suspect In Gasoline Theft Gets Chance To Do Morning Chores

Mayor Charles E. McGrath does not believe in permitting dumb animals to suffer for the acts of their human owners according to instructions issued last night following the arrest of William and Wallace Daniel, 20 and 22 years old respectively, of 5 Balph avenue on suspicion of stealing gasoline from an automobile in Florence avenue.

Following their arrest, they informed Lieutenant Cecil Suber that the Daniel family kept a cow on a place near Volant and that the cow should be milked. Communication was established with the mayor. He instructed Lieutenant George Kennedy to take one of the boys to the place and have the cow milked in order that the boy would not suffer. This was done this morning.

When questioned by Lieutenant of Detectives Ray Showalter today, William Daniel said he had stolen the gasoline according to Showalter. Wallace Daniel who had been in their auto, denied any guilt.

PRESIDENT MAY RE-STATE FOREIGN POLICY OF NATION
(Continued From Page One)

House continued to beat back all inquiries with the set answer, "No comment."

It appeared that if anything was to be said in behalf of this government's concern over developments on the continent that Mr. Roosevelt would say it himself.

The president was fully apprised of the situation in London which forced Anthony Eden's resignation as British foreign minister and the house of commons debate over England's future Italo-German relations.

President Has Conferences
Official pouches from Washington gave Mr. Roosevelt lengthy dispatches from American chancelleries. The telegraph wire that connects the White House and Hyde Park worked steadily. Finally, the president was on the long-distance phone talking to his diplomatic aides in the national capital.

Already, Mr. Roosevelt is on record as demanding an American navy large enough to defend both the Atlantic and Pacific coasts simultaneously in the event war struck from both directions. Congress has before it a billion-dollar naval construction program.

Looking over his past public utterances, the president repeatedly has condemned dictatorships and extolled the virtues of democracy. Last October, in Chicago, he startled the world by warning that international developments were leading up to another general war and suggested a "quarantine" of aggressor nations.

to support the vote of censure and unite in a demand that Eden be returned to office. At this very moment the youthful statesman who quit office because of his "principles" was at Buckingham Palace, handing over the seals of his office to King George.

Greenwood vigorously attacked Chamberlain's admission Britain was considering recognition of Ethiopia as part of a general European agreement.

"Recognition of Abyssinia," he said, "will drive the United States into a policy of isolation."

There was an obvious change in the demeanor of the house of commons overnight. Chamberlain rising to reply to Greenwood, was cheered for two minutes—proof that the bottom had dropped out of conservatism opposition to his policies.

Eden entered the house just as the prime minister was saying he had tried to be "scrupulously fair to him."

FACTS ABOUT INCOME TAX

AUTOMOBILE DEDUCTIONS
With the number of automobile owners registering in the millions, the question of deductions for the cost of operation and maintenance of a motor car frequently arises. The purchase price of an automobile, whether it is to be used for business or pleasure, cannot be deducted from gross income. If used for business, it is a capital expenditure. If used for pleasure, it is a personal expenditure—both deductions being expressly prohibited by the income tax law.

Several deductions, however, are allowable in connection with the cost of maintenance and operation of an automobile, used either for business or pleasure. If used exclusively for business, deductions may be taken for the cost of gasoline, oil, repairs, garage rent, and other necessary operation and upkeep expenses. Depreciation based on the cost of the car and its estimated useful life, also is deductible.

Other deductible items are as follows: Sums paid during the taxable year for registration fees, driver's licenses, personal property tax, and municipal taxes; interest on money borrowed for the purchase of a motor car, either for business or for pleasure; loss sustained by reason of damage while car is being used for business, provided such loss is not covered by insurance or otherwise; damages paid for injury to another, provided that the car was being used for business at the time, and the damage was not covered by insurance or otherwise; and the amount paid for insurance on motor vehicles used for business purposes.

These one, two and three man business concerns are the backbone of the country," said Lamneck. "They must be relied upon to fight monopoly, to which the administration itself is so vigorously opposed."

Lamneck said that there are "strange, disturbing rumors abroad" that the purpose of the special tax is "to get certain large corporations which are controlled by men or families who do not agree politically with those in power."

Don't take needless risks with CHEST COLDS

Relieve Their Misery This Proved Way
WHEN there's a cold to treat—especially if it's a chest cold—there's no time to experiment. Believe the misery with the treatment that has been doubly proved for you.

Here's What To Do: It's best to stay in bed and get lots of rest. Eat lightly, drink plenty of water, and keep eliminating regular. And use your dependable Vicks Vaporub without delay.

VapoRub has been proved by everyday use in more homes than any other medication of its kind—further proved by the largest clinical tests ever made on colds. (Full details in every VapoRub package.) Only Vicks give you proof like this.

VapoRub is direct external treatment. No "dosing"—no stomach upsets. Just massage it on throat, chest, and back. Then—to make it the long-continued double action last even longer—spread a thick layer on the chest and cover with a warm cloth.

No Long Waiting for Relief to Begin...
Almost before you finish rubbing, you begin to feel warm and comfortable as VapoRub goes to work direct through the skin like a poultice. At the same time its medicated vapors, released by the warmth of the body, are carried direct to the irritated air-passages with every breath.

This double action loosens phlegm—relieves irritation and coughing—helps break local congestion. And restful sleep comes. VapoRub keeps on working.

Throng Shares Golden Wedding Of Mr. And Mrs. Ira D. Reed

MR. AND MRS. IRA D. REED

Pages of the "Family Album" were turned back a few chapters by Mr. and Mrs. Ira D. Reed, near Mt. Jackson, on Monday, when they held "open house" at the American Legion home in Mt. Jackson, in celebration of their golden wedding anniversary, which falls due today, February 22.

A throng of guests including friends, relatives and neighbors, was welcomed during the afternoon from 2 until 4 o'clock, and in the evening from 7 until 9 at an informal reception. Over three hundred registered, and it is learned that there were many who had overlooked this feature, thus slipping out without signing their names in the leather bound "Memory Book."

Mr. and Mrs. Reed are pioneers of this section. Mr. Reed being the son of the late Squire Joseph and Harriet Hanna Reed, early Lawrence county settlers. Mrs. Reed is the daughter of the late Major Samuel Davidson and Harriet McClelland Davidson, pioneers of Beaver county.

The wedding took place February 22, 1888, in the Third United Presbyterian church at Pittsburgh, Pa., with the Rev. J. T. McCrory, D. D., now deceased, being the officiating minister. They went to housekeeping on what is known as the Jake Bender farm, located near Mt. Jackson, and since that time they have been leading farmers of this county.

At 5:30 o'clock a family dinner was served, with places marked for seventy. Gold and white was the theme that predominated, and a traditional wedding cake of several tiers, formed the centerpiece. The rooms were literally banked through-out with huge bouquets of flowers, the gifts of friends. In addition, the couple received many other lovely remembrances, including, elegances, postals and letters from those unable to be present.

Included in this family group were their nine children, Mrs. W. O. Wink and Mrs. Ada Kyser of Akron, O.; Mrs. W. C. Fowler of Mahoningtown; Mrs. Ella Lamson, Mrs. Harvey Mollenkopf and Joseph Reed of Mt. Jackson; Mrs. John McCrory of Little Beaver; S. D. Reed of Croton avenue, and Mrs. William Reynolds of the New Wilmington road. Twenty-four grandchildren and three great-grandchildren, and a few close relatives were also in attendance.

During the evening, a lovely program of entertainment featured, including vocal selections contributed by Mrs. Clifford M. Propst, with

'PROPER ATTITUDE' IS ADDRESS TOPIC

One of the most elevating and interesting addresses the New Castle Business and Professional Women's club has had the pleasure of hearing was delivered by Russell Moore of Columbus, O., at Monday evening's dinner-meeting in the Y. W. C. A.

Mr. Moore, an insurance man, had for his subject, "The Proper Mental Attitude." It was a message intelligent, uplifting and timely.

Mr. Moore defined success as "happiness." The important factor in securing success is "the proper mental attitude" and the important factors in securing the proper mental attitude are: Confidence in God, confidence in self, confidence in other people and confidence in and of your business.

How are we going to get it? Through thought and emotional control. The speaker stressed the point of having a definite aim and a burning desire to attain that aim.

Mr. Moore was introduced by Elmer McClymonds.

The finance committee had arranged the program.

D. D. 500 Club
Members of the D. D. 500 club will meet in the home of Mrs. Robert Robinson, 701 Croton avenue, on Wednesday evening with Mrs. David Cox as co-hostess. This is a change from the previous announcement, which stated that the club would meet at the home of Mrs. Cox.

SIX O'CLOCK CLUB HAS 'HOUSEWARMING'

Six O'clock Dinner Club members invaded the new residence of Mr. and Mrs. James E. Everhart, on North Walnut street, Monday evening, and tendered them a surprise housewarming.

The occasion was successfully planned by Dr. and Mrs. G. S. Jenkins, committee in charge. The Everhart family formerly lived on Butz street, and the occasion last evening, almost overwhelmed them.

Bridge held sway, the smart awards falling to Mrs. John Morgan, Mrs. Walter Gilmore and Mrs. Frank R. Doyle. Mr. and Mrs. C. E. Black were special guests and they too, were given a remembrance.

Lunch followed, the appointments being suggestive of Easter. Pouring at the attractively arranged table, was Mrs. Frank Doyle.

The guests of honor were again

surprised, when, given a handsome present from the club, to use in their home. They will be hosts at their next regular assembly, on February 28.

MRS. LINGENFELTER HONORED BY CIRCLE
Mrs. C. A. Lingenfelter was pleasantly surprised Monday evening by the Mothers Circle, First M. E. church, when they met at the home of Mrs. J. C. Lechner, Highland avenue. The event was in the form of a farewell party for the former, who is leaving this week to make her home on Stambaugh avenue, Sharon.

A "question bee" formed the evening's diversion and afterwards, delicious refreshments were served, appointments being carried out in the Washington's birthday theme.

Mrs. Lingenfelter was presented with a beautiful gift from the Circle.

BUSINESS COLLEGE
Our classes are now well organized and Monday is a very good time to enter. Our classes are especially arranged for high school graduates who have finished without taking any commercial work, and for those who have finished a commercial course. Our accounting, and bookkeeping classes, as well as our shorthand, typewriting and other commercial classes are A-1—very fine for those who wish to start at the beginning and our advanced classes are very fine for those who have had commercial work.

The Parent Problem

By Garry C. Myers, Ph. D.

STUTTERING CAUSES WORRY

Dear Dr. Myers: My little girl, three years old, stutters. I know what it is she wants to say, I usually finish the sentence. Is this right? What else should I do?

"I have always kept her to schedule, given her the proper food, etc. But if she gets the least bit excited over a new toy or the coming of a favorite relative, it takes her hours to calm down and to sleep. Her only playmate is a little girl five months older, but they still have difficulty in getting along together."

How I answered her: You seem very wise and sensible toward your little child. Obviously she is extremely nervous. Go on giving her the word she can't get so long as it does not vex her. Never stop her or interrupt her or ask her to repeat. Do not look at her mouth as she stutters. Avoid holding your breath or any other gesture indicating your awareness of her stuttering. Read a great deal in her, you say. Dad, to give her word, phrase and sentence patterns. Select non-factual materials. Sing lullabies to her. Keep the radio wholly silent while she is awake, regardless of the personal sacrifice to the family. Work for a serene family atmosphere with the whole family talking in gentle tones. Let more things go so you can get more rest and sleep yourself. Don't let her play games of chase. Don't have her play out of doors but not for long periods at a time. Protect her from strong excitement and fatigue.

Expect Quarreling
Expect her to quarrel some with other children. Train them to take turns and respect each other's possessions. Gradually attract a few other children, her age, to your home, usually only one at a time, never more than three. Remember that a threesome group won't mix.

You also say there is a baby brother. Consider jealousy as an irritating factor, rendering her more emotional. You and Dad should pay more attention to her and less to baby. Don't hesitate occasionally to sit down and cuddle her. Patiently answer all her questions. Encourage her to build with blocks and to draw with crayons on large sheets of paper. Keep in close touch with your doctor. He probably has advised you to help her get ample sunshine and cod liver oil. I discuss your problem at length in my book, "Building Personality in Children," which you probably can borrow from your public library.

Frank T. Trabucco, postmaster of Mt. Lebanon, a former mining town, has held the position continuously since 1887. There evidently is no salary connected with the job, or some politician would have had him ousted long before this.

Then today it can be said
Washington has long been dead.

But if life be power to cheer
Man in doubtful moments here;
If it be the spark that gleams

The World At A Glance

Heads Of Nations Weary They Have No Lieutenants New Leaders Inconspicuous

By LESLIE EICHEL, Central Press Columnist
PRESIDENT ROOSEVELT needs the fishing trip to Florida which he quietly arranged. From all reports, he is very tired. The entire nation troops to his doors, and lay its burden there.

The head of each modern nation finds the same difficulty. There are no lieutenants who can carry the load.

And why not? Because we have heretized a few men. It is a fantastic age. We insist upon one outstanding political leader, one outstanding ball player, one favorite movie star.

We have ceased to train or heed the quiet workers, the quiet thinkers, we cast aside, perhaps, the true talent, the ones who will not clothe themselves with glamor—and leaders have no successors. No new thought or talent is coming up, the alarmed citizen fears.

NOT LASTING
That condition, however, cannot last.

The majority of American undoubtedly believe that President Roosevelt will go down into history as a great fighter.

But there are men coming up, as surely as the sun comes up, perhaps men unknown now, who will be able to develop the socio-economic state far beyond the comprehension of present-day men.

There will be political leaders, young and fresh (who in turn will become weary), that will receive the acclaim of the tens of millions. Life is not ending, except for the few. It always is beginning. Evolution moves us forward, relentlessly, whether we will or not.

Or, as Goethe put it: "Nature knows no pause in progress and development, and attaches her curse on all inaction."

WHO ARE THE MEN?
Where are the men who will rise? This is the question everywhere.

The old wheelhorses, who have been mentioned for the presidential

nomination are to be pitted rather than smiled at. In this fast-moving age, they already are in the boneyard.

Have readers any thought on who the men are who most likely will rise to the top in American political life?

Where among these 130,000,000 people are the few who will lead the nation during the next decade?

Need a man to mow her lawn a woman telephoned WPA officers to learn if a man were available for odd jobs. The WPA office promised to take care of the job. Next day a truck loaded to the rails with boards and nine men drew up in front of the house.

Thinking there was some mistake, the woman hurried out to prevent unloading of the lumber. "I only wanted a lawn mowed," she said.

"It's all right, lady," a man who appeared to be in charge said.

"This is now a federal project. We will build a rest room with the lumber, as required by the rules. Two of the men will be sitting in it all the time, two will be going in and two going out all the time. The other two will cut the grass. I'm the superintendent."

Words of Wisdom
Fly the pleasure that bites to-morrow.—Herbert.

Once Upon Feb. 22nd—If we observed Washington's birthday Feb. 22, it would be a great man to honor on Feb. 22.

John Stuart Skinner was born 150 years ago this date in Baltimore, where he established the first farm magazine, The American Farmer, and the first outdoor sports magazine in the country, The American Turf Register.

It is also worthy of note that he was with Francis Scott Key on the mission that suggested the latter's "Star Spangled Banner," and he was chosen by Marcus de Lafayette to manage the 200,000-acre tract of land given the latter by Congress.

But his great achievement was in improvement of the postal service. In its early years the postal service in America was a loose, disorganized, haphazard affair by court favorites, violent patriots, zealots and just plain crooks," as one historian puts it. The idea of Federal authority over anything was new. Perpetrators of postal frauds and misappropriation of funds usually went unpunished.

As a postmaster of Baltimore, which has been the birthplace of the first Continental mail service, Skinner changed all that. He put his post office on a business basis. He introduced the idea of postal inspectors and helped get central authority established and accepted. He insisted that even

though the higher posts were political, that the rank and file of postal employees be competent and efficient. He started the movement for better mail service to the rural districts. To him our post office department owes much.

Once Upon Feb. 22nd—1630—The first Thanksgiving Day was observed in Massachusetts colony.

75 Years Ago Today—Construction of the Central Pacific R. R. Pacific coast link of the first transcontinental railroad, was begun at Sacramento. The rails had been brought from the East by water all the way around South America.

1865—President Johnson declared Congress in rebellion! Exactly two years later Congress impeached President Johnson for "high crimes and misdemeanors."

1927—The first night airmail plane was piloted between North Platte, Neb., and Chicago. By Jack Knight, who returned a pilot a few weeks ago, at the age of 44, after having flown 2,400,000 miles.

WINE BOOSTS BERRY SALES
WASHINGTON, Wash.—Legislation of wine provided Washington state fruit growers an important outlet for surplus products. Warren Dewar, supervisor of wineries and breweries announced.

Since wineries added a market, canneries increased in value from \$40 to \$200 a ton, Dewar said. In 1927, a total of 1,851,070 pounds of Logan berries went into wine in this state.

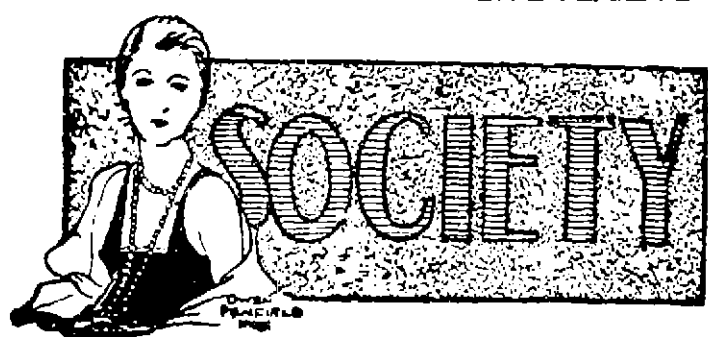

Other fruits used included 16,683,000 pounds of apples, 1,880,596 of cherries, 692,039 of peaches, 888,900 of blackberries, 264,435 of prunes.

"So you have bay fever and every time you sneeze your foot goes down harder on the throttle, eh?" asked Motorcop Murphy, near Kaczorowski, after halting the motorist. "Mister, that's no excuse to be sneezed at, but we'll have to let the judge have a sniff just the same."

The trouble with banquets, observes the Office Crouch, is that they're generally prepared in honor of people who generally have too much to eat anyway.

Candidate Backed By Labor Loses Out At Seattle

SEATTLE, Wash., Feb. 22.—Mayor John F. Dore, known as Seattle's "Boss Mayor," received a stunning political blow today when the complete unofficial returns in the battle for the mayoralty showed he had been defeated.

Dore's defeat was equally stunning to Dave Beck, the powerful A. F. of L. leader of the West Coast. Beck had vigorously backed Dore.

The complete unofficial tally of 508 precincts gave Arthur B. Langbein, conservative city councilman, 50,389 votes, and Mayor Dore, 49,611 votes. Dore trailed with 21,369.

The two leaders will be opposing candidates in the final election March 8.

Accident Buries Engine Under Tons Of Coal

(International News Service)
PITTSBURGH, Feb. 22.—The coal tender and engine of a Pennsylvania railroad freight train on the Conemaugh and Buffalo division were buried under an avalanche of tons of coal today when the coal chute at Red Bank stuck as the train was being refueled.

The train had stopped at the coal chute at Red Bank, 65 miles north of Pittsburgh, for coal. The chute stuck and about two railroad car loads of coal thundered down on the engine.

All passenger and freight trains were delayed several hours until the coal was removed. The engineer and fireman were not in the cab and escaped injury. The train was enroute to Pittsburgh from Oil City.

The longest record for continuous service in Congress is held by William E. Borah of Idaho, who was elected to the Senate in 1907 and has been a member of that group ever since.

Heart Piracy Is Denounced

Evangelist Declares Husband-Stealers Should Be Lodged In Jail

Launching a terrific bomb and shell attack against sin and wrong going last night, Evangelist Tubby spared no one in the audience and made it plain that the way of the transgressor is hard.

He said: "There are women in New Castle who are guilty of grand larceny, they are downright thieves. No, they have not robbed a bank, they have not taken money from anybody's pocket, they have not gone off with someone else's automobile. No, they have not done these things, but they have done worse. They have stolen the heart of a man who belongs to another woman. They have broken that faithful wife's heart, made her life a nightmare and caused her pillow to be wet with tears.

"Do you think those vampire female thieves will escape the wrath of God? They have not been apprehended by the strong arm of the law. They have managed to keep out of jail where they rightfully belong for they are a menace to society but there is a worse fate awaiting them in eternity unless they hasten to repent.

"I hold here in my hand an advertisement that so impressed me that I cut it out. It announces a new perfume and has a very unusual name. It is called, 'My Sin' perfume. That vividly describes conditions today. They are trying to tell you that sin is still a horrible stench in the nostrils of almighty God. He cannot endure it. He will surely visit vengeance upon it. There is a fearful price attached to sin."

Tonight Mr. Tubby will present a powerful prophetic message entitled, "Hell on Earth." Tomorrow's subject will be, "From Doom to Deliverance." A question box is being conducted this week.

Proposed National Super-Highway System

Here are suggested north-south and east-west super-highways, which would be constructed by the federal government at a cost of eight billion dollars, to be paid for eventually through tolls and leases to highway rights. According to the plan, there would be three transcontinental highways and six north-south routes. Author of the plan is T. E. Steiner, Wooster, O., industrialist. Senator Robert J. Bulkley of Ohio took it up, and now the administration supports such a proposal.

Expect Senate To Vote Relief Bill Favorably

Bill For \$250,000,000 Will
Be Up For Vote Today
In Senate

(International News Service)
WASHINGTON, Feb. 22.—Senate passage of the \$250,000,000 emergency relief bill appeared certain today before a final vote on the Senate amendment to increase the total to \$300,000,000 and on the Latham amendment inserted by the house to tighten existing law which gives citizens preferences over aliens in relief expenditures.

Senate leaders predicted both amendments will be defeated, thus sending the measure back to the house for concurrence on deletion of the Latham provision.

Carry On Program
The \$250,000,000 was requested by President Roosevelt to carry on the WPA's present program until the end of the fiscal year, June 30, and to employ immediately 500,000 additional needy persons. Unless the appropriation is passed quickly, acting administrator Aubrey Williams said the relief roll will have to be reduced from its present enrollment of 2,200,000 to 1,800,000.

Having sidetracked the filibustered anti-lynching bill for the remainder of the session, the senate will take up the departmental appropriation bills when the relief bill is passed. After these are enacted the governmental reorganization bill will be considered.

Mayor La Guardia Without Comment On Hitler's Move

(International News Service)
NEW YORK, Feb. 22.—Mayor F. H. La Guardia of this city, erstwhile outspoken critic of Adolf Hitler, today was conspicuously absent from the ranks of notables criticizing the latest bold move of the Fuehrer.

After declaring he had made a few international pronouncements which had caused furries of excitement, La Guardia said he had decided to leave the conduct of international affairs to Secretary of State Hull and would devote himself to the affairs of New York City.

Obliges McNutt; Loses His Post
(International News Service)
WASHINGTON, Feb. 22.—The setting down of the Army field commander who graciously picked Paul V. McNutt, high commissioner of the Philippines from Hamilton Field, Calif., to Denver last week to attend a political meeting, set Washington gossiping today.

The war department's regulations forbid the use of army equipment for political purposes and pleasure trips. And so the obliging pilot, Lt. Col. Davenport Robinson, was relieved as commander of important Hamilton Field and assigned to the Chamute Field group school at Randolph, Ill.

War department officials claimed Johnson's transfer was a "routine order" but his friends thought otherwise. Some of them declared he was the first victim of McNutt's widely-branded visit to the capital tomorrow.

Adjustment Rooms Aid To Schools
Reports of the progress of the adjustment rooms recently installed in various public school buildings indicate that the work thus far has been successful according to Dr. C. C. Green, superintendent of schools.

These adjustment rooms, seven in all are for three classes of pupils, first the small group classed as uneducable, second, the group unable to keep pace with normal students, and third the group that needs special attention in particular subjects.

Children who have been assigned to the adjustment rooms are pleased with the opportunities which have been provided for them, the regular classes benefit by the segregation of the special groups and it is the judgment of the teachers and principals that the new plan is of distinct benefit to the school system.

Kennedy Proves Good "Gag" Man

(International News Service)
NEW YORK, Feb. 22.—It was just good clean fun but it had society matrons and sub-bet daughters saying ear-burning things until today about Joseph P. Kennedy, new United States ambassador to London.

Kennedy was guest of a group of radio commentators at a send-off luncheon As a gag and strictly as a joke, one of the commentators remarked that the new ambassador had been so pestered by society

women that he had decided not to present any American women at the court of St. James Palace.

But the gag turned into the real stuff in the telling and society buzzed. In self defense Kennedy issued a five word statement.

"It was just a gag," he said. And he didn't sound as though he thought it was a good gag.

By ERIC FRIEDHEIM
International News Service Staff Correspondent

WASHINGTON, Feb. 22.—The number of income tax returns to be filed for 1937 earnings is expected to set a new all-time record high despite the sharp business decline that set in during the final three months of the year.

Treasury studies indicated today upwards of 6,000,000 individual income statements probably will deluge the internal revenue bureau by March 15.

See Gain Over 1936.

This will represent a substantial gain over 1936 for which 5,447,139 returns were filed. In 1929, only 4,044,000 income tax returns were submitted.

While the number of returns anticipated this year will be the greatest since the income tax was adopted more than two decades ago, the amount of revenue from this source probably will be less than was received in 1936 earnings.

Revenues for 1935 included the initial flood of corporation dividend payments forced out under the undistributed corporate profits tax. Because of reduced business earnings in the last quarter of 1937 dividend payments to stockholders will be reduced considerably.

See Decline In Payments.

In his recent budget message, President Roosevelt estimated corporate income tax receipts for the next fiscal year would total \$1,005,000,000, a drop of \$170,000,000 from the current fiscal period. Individual income tax payments are expected to decline by approximately \$100,000,000 during this time.

Boom-time business prevailing throughout most of 1937 increased earnings of many persons in the country.

Robert J. McComb to Emilio Valente, Plainville township, \$1.
John Quear to John Quear, Jr., North Beaver township, \$1.

In an order handed down Monday by Judge W. Walter Braham Thursday, February 24 has been set as the day for hearing the injunction petition of Harry J. Clarke against the City of New Castle and the Municipal Equipment Company in the parking meter controversy on the South Side.

Five weeks ago Mr. Clarke asked for an injunction restraining the city from installing parking meters on Long avenue, particularly in front of his place of business. He questioned the right of the city to use the ground in front of his store for a device which would return revenue and asked that the city be restrained.

The city filed its answer averring that under its police powers it had the right to regulate traffic on the streets and that the meters were a part of the traffic regulation.

Regardless of the outcome of the injunction petition, it is quite likely the case will be carried up to the appellate courts. There has never been a decision in Pennsylvania upon the legality of the parking meters and it may be that the New Castle case will be the one which will decide it.

Judge W. Walter Braham has returned from Erie where he served a week in the criminal courts there. The case in which a young man shot his father was tried by Judge Braham. A verdict of acquittal was returned in the case.

In both court rooms one and two Monday there was placed a handsome American flag set in a supporting base. The county commissioners believe and rightly so that the flag in the court room recalls to the minds of litigants and spectators that the proceedings at issue are under the protection of the flag. The flags are beautiful ones and add to the appearance of the court rooms.

After several years of litigation the final order in the partition of the George McCracken estate is expected in a few days. The partition of beneficiaries to divide the estate in order that those benefiting by it may get their share.

Business is out today in the court house. The offices are all closed and officers and attaches are getting a holiday.

The county commissioners have set the millage for the coming year and as announced, it will be eight mills. Under the law they could not set the millage finally until the budget had been on display for twenty days. The twenty days having expired the millage was set on Monday and the budget adopted.

The twenty day display of the budget attracted nobody this year again. Save three salesmen who handle equipment and who wanted to see what was in the budget for new equipment. Every citizen of the county had the right to go to the court house and see what was to be done with his money this year, but nobody seemed to care. The fact that the budget has been carefully and economically prepared is beside the point. It might not have been.

The proposed project at the Paper Mill in the town of New Castle is receiving considerable thought from the county commissioners. If it was put through, the project would result in a wall being built on the west side of the creek. By it flood waters would be held back off adjoining lands and considerable damage saved.

The following letters have been issued by Register and Recorder Orville Potter. Letters of administration to Rose M. Nodduff in the estate of John G. Nodduff late of New Castle, who died February 8, 1938.

Letters of administration to Kate W. Manewal in the estate of Jane Macklin of Bessemer, who died June 2, 1937.

Letters of administration to Jesse H. Crinkleton in the estate of Granville Smith of New Castle who died January 30, 1938.

Letters testamentary to John G. Lamore in the estate of John Miller of New Castle who died December 19, 1937.

Letters testamentary to Raymond Peluso in the estate of Bicola Mottolo of New Castle who died February 9, 1938.

The young ladies of the registration commission office were alarmed Monday. They were afraid four horses would be put into the office. After the excitement died down it was explained that there were no horses to be put in, merely four plugs. Electrical plugs.

In the office of Prothonotary and Clerk of Courts John A. Edgar Rosenblum Brothers Company of Youngstown enter a suit against Alfred W. Lago, of New Castle for \$483.66 with interest from November 1, 1937, alleged to be due on a bill of produce sold the defendant.

Roy Razon of Eliphot has been appointed delinquent tax collector for that borough. There are still two townships where it appears that the constable will be forced to take the job. Scout and Pulaski townships. Delinquent tax collectors are hard to get these days.

LAUDS DEFENSE AS "INSURANCE" TO U. S. PEACE

Dr. Foster, Reserve Officers' Leader, Rotary Luncheon Speaker

National defense today constitutes "America's only real insurance for peace," Dr. Arthur B. Foster, president of the Shenango Valley chapter of the Reserve Officers' Association, told Rotary club members in a National Defense Week message at The Castleton Monday.

"National defense," said he, "is only a means to an end—and that objective is peace."

The speaker, presented by Dr. W. Fulton Jackson, member of both Rotary and the Officers Reserve Association, defined war as "the inability of the human mind to determine accurately and invariably what is right and what is wrong and what is best and what is not best."

Then he described the nature of war, efforts to attain peace through treaties and world alliances, through the acceptance of Jesus Christ as the ruler of right.

and wrong in the hearts of men—and through the last, national defense.

"It is our only alternative," Dr. Foster said of adequate defense. He asserted there must be adequate protection on both the Atlantic and Pacific shores, for he said "war is right in the middle of the figure."

Dr. Foster recalled the advances in the mechanization of war machinery early in the address.

The Reserve Officers' Association which the speaker heads, embraces Lawrence, Mercer and Butler counties. National Defense Week is being celebrated from February 12 to 22.

Lame Duck Is
Subway Rider

(International News Service)

NEW YORK, Feb. 22.—A lame duck, believed to be the first of its species outside of a congressman to ride in a subway car, was being carried by an ornithologist today after causing a mild panic in a crowded Brooklyn train.

The ornithologist said the duck was neither a Republican nor a Democrat but a Clangula Hyemalis (sea duck to you). Nobody was able to explain how it got into the subway train. Minus one leg, it flew around the car in a panic, beating its wings against the faces of jittery women passengers.

'European War Ahead?' Is
Rotary Lecturer's Topic

JOHN S. MOORE

Is the European stage actually being readied for another ghastly slaughter? Most everyone would like to know.

When the Rotary club's second "Institute for International Under-

standing" lecture is given in Senior high school auditorium Thursday evening, February 24 at 8 o'clock, the speaker, John S. Moore, famed Dayton, O., lecturer, will go right to the heart of that question, "Is a European War Inevitable?" will be his theme.

During 1937 Mr. Moore made his ninth trip abroad to observe and gather research. He has traveled, too, in the Orient and Latin America.

Mr. Moore has served as special correspondent of a number of Ohio papers to cover several sessions of the Assembly of the League of Nations, the World Economic conference in London, and other international assemblies. He was appointed delegate to the Institute of International Relations held in Geneva, and has been secretary of the Ohio branch of the League of Nations Association.

In the Public Forums, held under the direction of the Federal Commissioner of education, he served as one of the experts on world affairs and, during 1937, in connection with that appointment, gave more than a hundred addresses in Ohio, Minnesota, and Colorado.

Because of his special skill, gained from extensive traveling, Mr. Moore is able to interpret world movements understandingly and to present these interpretations intelligently to the American public. He is especially competent to discuss international problems from the public platform and to conduct forums on these subjects.

DUBUQUE, Ia., Feb. 22.—The debtors of Michael H. Sausser, 78-year-old farmer, were blinking their eyes today over the news that they are his heirs. Obligations totaling \$67,800 were cancelled under the terms of the will and the debtors each given a share of his unestimated estate. A sister and other surviving relatives have announced intentions of contesting the unique document. Sausser, who became a prosperous lumber dealer after retiring from the farm, died on January 11.

Whitney alleged his 20-year old daughter lives with her mother, from whom he is divorced in an expensive apartment.

Close friends of the dancer, who is in the east, said, however, that there is another side to the story. They declared the actress has supported her mother and educated her younger sister since she was ten years old. She has also helped her father many times, it was said.

The seed couple have two sons and one daughter, eight grandchildren and seven great-grandchildren.

Resume Hearing
On 44-Hour Week
Law In Capital

(International News Service)
HARRISBURG, Feb. 22.—Resume hearings despite the holiday, the state today again was to renew its prolonged battle in defense of the controversial 44-hour week law.

The act recently was declared inoperative by the Dauphin county court on petition of C. W. Miller, Perry county grocer and taxpayer. Miller obtained a general injunction restraining enforcement of the act until the supreme court passes on its legality.

Today's hearing is a resumption of the action originally filed by the Helgate Brothers Manufacturing company of Kane, Pa., more than 700 firms in the commonwealth have intervened.

The plaintiffs have completed their suit. The state has been defending the act on economic grounds.

DUBUQUE, Ia., Feb. 22.—The debtors of Michael H. Sausser, 78-year-old farmer, were blinking their eyes today over the news that they are his heirs. Obligations totaling \$67,800 were cancelled under the terms of the will and the debtors each given a share of his unestimated estate. A sister and other surviving relatives have announced intentions of contesting the unique document. Sausser, who became a prosperous lumber dealer after retiring from the farm, died on January 11.

Whitney alleged his 20-year old daughter lives with her mother, from whom he is divorced in an expensive apartment.

Close friends of the dancer, who is in the east, said, however, that there is another side to the story. They declared the actress has supported her mother and educated her younger sister since she was ten years old. She has also helped her father many times, it was said.

The seed couple have two sons and one daughter, eight grandchildren and seven great-grandchildren.

New Castle-Ambridge Will Battle Tonight

SCHOOLBOY FIVES SEEKING TITLE IN SECTION 3 TIEUP

First Game Of Section Three Elimination Will Be Played Tonight

Aliquippa Will Play Winner At Pitt Stadium, Game Starts At 8 P. M.

Two high strung scholastic basketball teams are poised for a fast and furious engagement tonight at the beautiful Daves gym in New Brighton. The two teams are New Castle and Ambridge. A three-way tie in Section Three this year resulted in New Castle and Ambridge being drawn for the first game of the series, with Aliquippa High set to meet the winners Saturday night at the Pitt Stadium.

The game tonight will start at 8 o'clock. There is no preliminary game. The New Brighton gym will seat about 2,500 or 3,000 fans. There will not be many seats left at game time.

Get Final Drills
Head Coach Phil Bridenbaugh and his assistants, Thomas and Gardner gave the boys their final instructions on Monday in a four drill at Wash. High. If the New Castle team looks as good tonight as they did against Butler High Friday, the Ambridgeans are going to find themselves up against some tough opposition. New Castle holds two victories over the "Bridgers" in the regular season, being the only team to accomplish this trick. But, that doesn't hold much water tonight. There is a lot at stake for both teams.

Look For Crowd
On the sidelines will be the Aliquippa High boys, rooting for their favorites to come through. Some will be for New Castle, others for Ambridge. No matter what happens Aliquippa is sure to get a "shot" at either team.

There is no doubt that the Beaver Valley is going to turn out in large numbers to see this struggle tonight. There is considerable interest, not only in New Castle and Ambridge, but the entire valley is alive with excitement.

happy if the "Bridgers" can upset the Bridenbaughs as this trick has not been done very often by Ambridge or any other team in recent years.

Victory Longed For
New Castle will fight to the "last ditch" to win the game this evening. It has been two years now since the locals appeared at the Pitt stadium and they are anxious to play in the "Big Town."

A lot will depend on Nocera and Statiebaugh. They are the only two boys with tournament experience and that is what counts in a tough game such as will be revealed tonight. Kozela, Sulek and Carey have yet to face a tournament crowd and game, but all three can be relied upon to come through beautifully, just as they have all year.

Several Stars
Ziolkowski, Sweeney and Hollett will be the marked men in the Ambridge lineup. It has been the work of this trio that has kept the Bridenbaughs in the Section Three lead most of the year. Palmer is one of the best guards in the district, and will make it tough for Nocera and Kozela no doubt.

New Castle should be a little bit fresher for this titanic struggle than Ambridge. Last Friday New Castle romped home handily over a green Bridenbaugh team, while Ambridge and Aliquippa were having that "catch as catch can" engagement at Aliquippa.

No hint of the officials for the game will be given out till game time. It is a policy of the W. P. I. A. L. committee much after the fashion of the big prize fights.

Expect Packed House
The tickets for the game if bought here at the Sporting Goods Store or Senior High will be 40 cents per copy. If you wait and get your pasteboards at New Brighton, it will be 50 cents per pasteboard. The smartest thing to do is to get your tickets in advance, not alone to save a dime, but save confusion at the gate.

The New Castle team 25 or 30 strong was to leave New Castle by bus shortly after 6 o'clock. The team will be taken directly to the New Brighton gym. In event of good weather the New Brighton gym will be filled to the rafters.

Good Luck Boys

Following are the probable line-ups:
New Castle Ambridge
Kozela Ziolkowski
Nocera Sweeney
Statiebaugh Zapacowski
Sulek Palmer

Har-Brack Is Favored To Win Floor Tourney

Paul Waner Silent On Contract, Harman Moving Over To Rutgers

CONN HOPES TO BATTLE LEWIS

By ED KIELY

PITTSBURGH, Feb. 22.—Some interesting notes from the 1938 National League great book: There were more home runs hit in Philadelphia's Baker Bowl last year than in any other National League park. The leading total was 134, driven by New York's Polo grounds a close second with 133 homers. Crosley Field in Cincinnati was low with only 27 Ruthian wallops recorded there.

Johnny Mize, the St. Louis first baseman, was the only player to hit home runs on every National League park during the 1937 season. Pennsylvania's contribution to the National League this year numbers sixteen players on seven teams with Boston being the only club without Pennsylvania representation. Included among Keystone state's representatives in the senior circuit are such diamond luminaries as Manager Jimmy Wilson, of the Phillies; Jim Riddle, of the Giants; and Bucky Walters, Philly pitcher.

Harman At Rutgers
Bagatelles: Riding down a hotel elevator with Paul Waner, Pirate slugger, who recently signed his 1938 contract. "How were the new contract terms?" he was asked. "You know," he replied, "I'll be paid \$10,000 more this year." "Well, how will the team finish next year?" the reporter queried further. "Why the fish were this long," Waner replied, stretching his arms full length. Possibly, Waner doesn't start thinking about baseball until training season.

Ray Stovick, Uniontown athlete, has been named captain of the Villanova 1938 baseball team. Stovick, an outfielder, who hit .304 last year, is a senior. Billy Conn, Pittsburgh boxer, has returned from a southern junky. He is adding weight in hopes of getting a shot at John Henry Lewis' light heavyweight crown next summer.

Harvey Harman, former Penn head football coach, was appointed to the same post at Rutgers. Harman, who learned his football at Pitt, will introduce the "Warner system" at the famous "Do or die" university.

Har-Brack high school is the early favorite in the WPIAL tournament, beginning next week. A woman picked Sonja Henie and Lou "Two Gun" Gehrig as the best looking athletes the past year, while Lenore Knight, former Homestead, Pa., Olympic star was in the show spot in the women's division.

It is reported that Connie Mack is moving his shortstop behind second base since he has acquired a six-foot three third baseman in Pedro Montañez, No. 2 man in the lightweight division, as an 8 to 5 favorite over Normant. Quarles in their scheduled ten round bout in Philadelphia tomorrow night.

AUCKLAND, Feb. 22.—By playing 256 holes in a day, Stan Gard, of the North Brighton club, New South Wales, claims the world's golf endurance record. He started his marathon performance at 12:55 a. m. and finished by the aid of automobile lights at 9:30 p. m. His best score was 78 on the tenth round and his worst 92 on the second. He had par figures at 59 holes. The previous endurance record was held by Bruce Sutherland, who played 252 holes at Edinburgh, Scotland in 1927.

Rambling Around In Local Sports World

Our crystal says "a long-long shot" ... We have always been obedient to our shining crystal and always wind up the right way. We did an extremely long piece of "crystal gazing" and saw Nathan Mann, our pisan, conquering the Brown Bomber of the ring, Joe Louis, tomorrow night in New York. It may sound silly, for one thing, Louis does not appear the Louis of a year or so ago... he can't take it. This was proved recently when we saw Braddock set down the Bomber in the reslin. Max Schmeling proved concisely that Joe can be licked, especially when he is tagged in the early stages of a bout... and if our memory serves us right, Jorge Breda had the champ groggy... let's delve into the records... Louis is listed as a straight puncher while Natic does a neat piece of hooking... according to boxing moguls, the straight puncher gets the advantage... the records show Louis won 30 out of 37 fights via the "kayo" method while Mann sailed away for ten counts 27 out of 46 fops... as far as ruggedness is concerned, we like Mr. Mann, who has yet to be knocked out... he was floored but once, in one of his early scrapes... he's tough, my friends... we will be disappointed if Louis scores a kayo... it takes one good wallop... we think Mann will bail it in during the 15 rounds and get Louis in the same predicament as did Schmeling... anyhow it's a hunch.

Really a ten pin demolisher... came a note today about Art Hoskins, former local athlete, now located at Gary, Ind... we were informed that Hoskins has developed into one of the leading ten pin bowlers in that city this season... he has been selected to bowl in the state tournament and also in the A. B. C. at Chicago this year... it is expected that 50,000 people will witness this sporting event... Mr. Hoskins will be remembered as a basketball player with the New Castle Pards and other teams... also as a baseball player with the South Side Independents a number of years ago... he is employed by the Carnegie-Hill Post Office company in Gary... we hope that Mr. Hoskins continues to beat the pinheads with the precision of a machine gun.

Cleaning out the question box...
To Nick Caney: Nathan Mann, Louis' opponent Wednesday, did not meet Bucky Baer... we feel that Mann is a better scrapper than Baer... to Eddy: Ford Frick is president of the National League... to Frank: Cleveland Indians train in New Orleans.

Louis And Mann Meet Wednesday

Another Warm-up For Brown Bomber Champion In New York City Ring

By DAVIS J. WALSH

NEW YORK, Feb. 22.—It probably only goes to prove that not all the nutmegs in Connecticut grow on trees but, anyhow, \$12,000 worth of highly imbued citizens are coming into town on special trains from New Haven and surrounding communities for what purports to be a ball pen, practice pitch and warm-over of the heavy-weight championship, one night hence, between champion Joe Louis and challenger Nathan Mann.

More interesting still is the fact that the promoters today lay claim to an "advance" of \$50,000, with the possibility that they'll do twice that amount through the windows by Wednesday. And more confusing than all other developments is that dealing with the odds on Louis, which are quoted at the presser, odds of 5 to 1 and are said to be soaring.

Murder Or Miracle
In other words, New York always in there leading with its visage, as them champs, the decision was not met with approval, especially in the East New Castle district where Shango township is situated... Shango was a pair of games behind while Union was still carded to face New Wilmington and Wampum, both games away from the Union hardwood.

Nothing except the latter could adequately describe a victory for Mann, judging by the way this town's taking it. Nobody, according to the odds, is giving him a chance and, in a different sense, that seems to go for his own camp. Anyhow, the word from down in Summit, N. J., is that they've taken a first rate street corner fighter and are trying to make him cute.

Normally, Nathan's cute like the average concrete mixer and, if he'll forget all that blarney when he gets in there, which doubtless he promptly will, he's better, much better, than any 5-1 ever given or asked.

He's a good left-hooker, but not as good as Louis. He pitches a fair fight, but Louis tops him there, too. He can box a bit and is reasonably fast, but Louis is better and faster.

Youngstown Loses To Titan Five 55-27

(Special To The News)
NEW WILMINGTON, Feb. 22.—Westminster's Blue and White took their twelfth victory at the expense of Youngstown College last night 55-27 as Andy Demo chalked up 20 points to give him 240 counters and an easy lead among district scorers. Following close behind, Demo was Gilliland, New Wilmington forward, with 15 points.

The story behind the score, however, is to be told in the bullet passes of Backus, tall Titan center, who was on the feeding end of a majority of the scoring points. Although Backus seldom takes part in the scoring procession, his absence from the floor deprives the Titan offense and defense of much of its power-drive.

Out of the game on the side-lines because of a bad ankle was Mel Miller, sophomore Blue and White guard, and in his place Tom Patton, who played one of his best floor games. Blocking the Penguin attack opened in earnest as Patton sank two from the wall, and Gilliland scored three times on passes from Demo and Backus.

The regulars left the floor with a 49-23 score, and Washabaugh's substitutes went into the game. Valiant scored in front of the basket, and Meever and Lindsay took free ones while the Penguins were scoring through Patterson and Hannah. The game ended 55-27.

NEW YORK, Feb. 22.—If upsets in the ring were as easily accomplished as they are in football, Nathan Mann would beat Joe Louis Feb. 23. Nathan could make his first defense of the title against Steve Dudas, provided the Clifside, N. J. heavyweight knocked off Max Schmeling in that "time-up" bout in Hamburg April 16. . . . we'd have something there. . . . and it isn't impossible, either.

One of the most likely hitters among the 100 or so American league rookies is Herbert (Babe) Barna, former West Virginia star. Babe got a tryout with the Sox last September, and in 19 games hit .380. . . . they say he's a great natural hitter. . . . but his fielding mark of 800 suggests that he is not so natural an outfielder. . . . anyway, Babe says he's a first baseman.

Priz Crisler seems destined to lead the watching eyes of the "old man" of his first coaching job was at University of Chicago under A. A. Stark. . . . his newest assignment is at Michigan under Fielding Yost. . . . Fred Perry and Elsworth Vines cleaned up \$35,000 in their tour along the Pacific coast before invading the south. . . . Don't look now, but isn't that ball club over there the Browns? . . . only three regulars from last year's lineup are left—Bell, Clift and West. . . . Red Kross comes back to the Browns via a trade with the Red Sox, thus returning to the team with which he started his big league career.

Frankish basketball fans have caused no end of excitement by tooting whistles at crucial moments during games in the Garden. . . . In British newspaper articles, Tommy Farr accused Jim Braddock of back-handing him and holding my head in clenchery and punching away. . . . Dear dear! . . . Farr's party company with his veteran comrade and trainer, Tommy Evans, whom he paid poor wages and otherwise treated shabbily.

The heaviest ball player is Walter Brown, Giants' pitcher, who weighs 265 pounds. . . . The thought just occurred to me that Col. Ruppert may be only trying to get his pictures into the papers with the balldozer over signing of Di Maggio and Gehrig. . . . We heard that the Colorado course where the national open will be played this year is a pretty soft layout. . . . so there may be another new record.

Some of the boys are saying the Cardinals have set up another farm team. . . . In Brooklyn! . . . now isn't that unkind?

Keystones Hand Youngstown Five 38 To 32 Defeat

Venditto Coached Machine Plays Fine Game At Youngstown, O., Floor

The Keystone A. C. basketball team played its finest game of the year last night at the St. Patrick's gym in Youngstown, by defeating the St. Patricians in a sizzling hot game 38 to 32. Morrison, Kelly and Cooper were the scoring stars for the locals.

The first period found the Keys in front 9 to 4 and at the half 18 to 14. In the fourth and final period the Keys coached by that well known veteran of the hardwood Andy "Coolie" Venditto gave the Youngstown team and fans a lesson in how to "freeze" the ball, and for the final three or four minutes had the ball practically all the time. The final score was 38 to 32. The game was the best and most accurate passing seen this year at the Ohio court and the Keys got a big hand from the fans.

It was the fifth straight victory for the Keystone A. C. passers and they will try to make it six straight tonight at the Falcon hall when they play a fast Ambrose Dukes team in a Beaver Valley league battle. The game will start at 7:30 o'clock.

Love of the First National Bank of Lawrence County; Geo. A. Carpenter, of the Union Trust Company; Clifford C. Headland, of the Lawrence Savings and Trust company; and James A. "American youth needs a magnificent education in iron discipline," Dr. Ralph C. Hovell, president of Washington Jefferson college, guest speaker at the banquet, told the bankers. "The only youth problem we have is an adult problem," he said. "The youth of Russia, Germany, and Italy have a cause, a magnificent obsession for which they are ready to give their lives. They have been given false cause by leaders who command them."

"Youth in America," Dr. Hovell said, "is all dressed up with no place to go. They are the saddest youth we have ever had, but are without a destination."

Farm Boy Can See With Both Of His Eyes Now

Aged Farmer Gave Young Boy His Eye In Successful Operation

NEW YORK, Feb. 22.—Frank Chabana, 45, of Farm No. 1, saw the light of New York today through the eyes of his own son, who had been blind since birth.

Amos, 67-year-old St. Joe, Indiana farmer, traded an eye for Chabana's blindness and consideration in a hospital ward and although the eye had given Amos a lot of trouble, it has brought nearly normal sight to young Chabana who had been blind.

The farm boy lost the use of his left eye in 1935. Carrying a sack of corn while at work on the farm, he dropped it, a cloud of fine dust rose and some settled in his eye. He immediately rubbed his eye and with the mixture of tears and fine dust rubbed his sight away.

Operation Success
Sometime later he was a patient in charity hospital in New Orleans. So was Amos, feeble and dim-sighted. Amos had had five operations for cataracts and faced another. While he waited for the next ordeal, young Chabana was his guide and strong right arm. His helpfulness brought Amos to a strange decision.

Booth, he proposed that the doctors should take his left eye, graft it to the scared remnants of Chabana's left eye and give the youth his chance to regain normal vision.

The operation was performed last Dec. 8 and today in New York for a radio appearance, Chabana reported he can see "fairly well" with it and hopes to see better.

So far he can only distinguish brilliant colors, see large objects but the eye is still blindfold, partly covered with a film which the doctors say will pass. He wears dark glasses which he hopes to remove in another month.

FRANKLIN RESERVES
A regular meeting of the Benjamin Franklin Girl Reserve club took place at the junior high school Monday afternoon.

For the benefit of the new members Nettie Rosen introduced by Commander Fred E. Polster, spoke along that line in a splendid address that held the complete attention of the large number of members attending.

The speaker said that the Legion was opposed to war as they had the experience of one war. History shows that this country has fought in a war about every 21 years and with the unrest in Europe almost anything may happen. The Legion is not a rabid organization but a lot of the casualties were caused by the officers and men who had insufficient training, the speaker declared.

It is the duty of the Legion to mold in the minds of young men and boys not to be aggressors but to follow the Prince of Peace, but if war is necessary to fight with ourselves rolled-up, was the concluding statement.

Following the address district deputy commissioner and correspondent of the 40 and 8, Dale Galey, of Mr. Jackson, explained the memorial to be erected in Gettysburg of Pennsylvania Light Artillery, Battery B of the Civil War.

It was announced that the Sons of the Legion will meet tomorrow night in the Legion rooms for a social meeting.

Council Meets To Consider Petition

Petition For Street And Sewer Improvement In Highland Terrace Considered

ELLWOOD CITY, Feb. 22.—A special session was held by the Boro Council on Monday evening to consider a petition of Paul Albino and K. E. Fox to have the boro sponsor a W. P. A. project for sewer and street improvement in the new Highland Terrace Plan of lots in Fifth Ward, with the boro's cost to be borne entirely by the petitioners.

The members agreed to have an ordinance for the project drawn up for the next meeting with the stipulation that the petitioners give a bond covering the cost of the proposed improvements before the project be sent to WPA headquarters for approval.

Complaints of street conditions in every part of the city occupied the remainder of the session. The street committee has been handicapped in the improvement work because they cannot secure the necessary amount of ashes.

Cliff Baader and R. M. Kline requested the council to improve in some manner Ninth street below Lawrence avenue and Beaver avenue. It was agreed that the street should be scraped as soon as the weather permits.

The old problem of whether a lot in the Fourth ward sold to Chris Rocco by the Home Finance company several months ago is a public street or part of a plan of lots was again before the council and it was again referred to the street committee and boro solicitor for definite action.

Adjournment was taken to meet on the regular night, Thursday, March 10.

Two Men Burned To Death In Fire At New York City

(International News Service)

NEW YORK, Feb. 22.—Historic Webster's Hall, former rendezvous of Greenwich Village Bohemians and the place where Richard Croker used to crack the whip over his Tammany cohorts, today was swept by flames that destroyed the interior of the structure.

Two men were burned to death in the fire which swept the ancient four-story building.

The charred bodies, identified as Thomas Burke, 48, and Henry Duran, 50, caretakers, were taken from the ruins of the basement where they maintained sleeping quarters.

Every governmental agency has been enlisted in a drive to end the activities of thousands of foreign agents impeding our defense preparations," the newspaper asserted.

An anonymous "ranking official" of the Military Intelligence Branch of the army was quoted as saying:

WASHINGTON AT A GLANCE

Businessmen Find It Hard

President's Views On Prices Causes Uncertainty Among Business Leaders

TOO HIGH, TOO LOW, HE DECLARES

Central Press
Washington Bureau
602 Times-Herald Bldg.

By CHARLES P. STEWART
Central Press Columnist.

WASHINGTON, Feb. 22.—Not more than two or three months ago President Roosevelt gave it out at one of his press conferences that prices were too high.

There ought, he said, to be quite a general reduction, to enable folk to do more buying, thus stimulating business.

He added, however, that wages should not be cut, or price reductions would not be stimulated; business would not be stimulated.

That was clear enough reasoning. The point which business raised was that few industries are making sufficient profits to cut prices, except at the expense of wage cuts, without going bankrupt.

BUSINESS PERTURBED

I am convinced of business' absolute truthfulness, I suspect that

sometimes its profits are larger than it takes to own up to.

Nevertheless, such was its argument, and it was considerably perturbed by the presidential suggestion. It was additionally confused, due to the fact that the administration's previous policy had favored price boosts. Higher prices were the object of dollar devaluation and gold sterilization.

And an advance DID follow.

Well, assume that it overdid itself, and that the president decided there ought to be a reduction again.

NOW—PRICES TOO LOW!

There might be some logic in THAT line of celebration.

But the other day "F. D." had another press conference in the course of which he alleged that prices are too low; they should be re-boostered. And gold's partial de-sterilization is restored to, as a move in this direction.

The administration clarified this seeming contradiction by saying that SOME prices are too low, some too high.

In his most recent statement, the president said the administration's economic policies were being directed toward a balancing of various commodity prices so that national income could be restored.

I am not a businessman, but if I were one I'd bet I'd be confused by these various statements.

UNCERTAINTY WORRIES

During the recent little business-men's Washington conference I was talking with a group of these paves from out in the sticks (and some of them were businessmen whose interests run up into the small millions).

One of them complained bitterly of the current administration's eccentricities, as he termed them.

"Yeah," quoth the second one, "but next time we may have John L. Lewis as president. How'll you like that?"

"No, I don't know where he stands anyhow. If he were president I could shape my program four years ahead, with plenty of certainty. I wouldn't like it, but I'd know what to count on. How can I gamble on anything, with the whole prospect changing month by month, if not week by week, or day by day?"

TWO GROUPS CLASH

Said a third:

"We have two sets of prices: '1. The big utilities, whose prices are fixed by the government, federal or local—like interstate transportation, power, street cars, gas and the like.

"2. Our little, more or less small-town businesses—retail.

"When we try for price and wage readjustments these big, regulated industries and our little, competitive business' interests clash."

Big business is formidable, but little business, collectively, is formidable also.

What it needs is organization. And little business is democratic. The workingman can become a small businessman—and a big businessman later, mayhap.

Part-Time Jobs To Stop Compensation Payments Of State

Persons who hold part-time or extra jobs, in addition to their regular positions, must count the time they spend on the part-time job as employment in the event they lose their regular employment and apply for unemployment compensation benefits, Secretary of Labor and Industry Ralph M. Bashore announced today.

"Many organizations in the state pay small salaries to members to act as secretaries, treasurers, custodians, or similar positions," Mr. Bashore said. "These 'paid' employees actually work only a few days each month in the performance of their duties for the organization.

"However, since they are paid salaries and such salaries are counted as income, the Unemployment Compensation division has ruled that under the law they are employed for those periods, even though their income be only a few cents a working period.

"To become eligible for unemployment compensation benefits the law plainly states that a person must be totally unemployed. Since these part-time workers are employed for a consideration, the time they put in will disqualify them for benefits or waiting period credits for that particular week.

Make Demand Of Columbia Head

Student Board Protests Action Of University President In Banning Burke

(International News Service)

NEW YORK, Feb. 22.—Dr. Nicholas Murray Butler, august and internationally famous president of Columbia University, today was faced with a demand by the student board, undergraduate governing body, that he publicly apologize to the Young Communists League.

The apology was demanded because Dr. Butler denied Robert Burke, Communist orator and former Columbia student, the right to return to the campus last Friday night to address a public meeting. Burke was expelled in 1933 for leading an anti-Nazi demonstration in front of Dr. Butler's home.

Friday, Burke was arrested by a campus detective and ordered to leave Columbia property immediately.

Dr. Butler had no comment today. The board's note asked for "an apology to the Young Communists League for the perfunctory manner in which their approved plans were altered without satisfactory explanation and the rude manner in which their invited guest was treated."

It also demanded "a guaranty that student organizations be permitted to operate as they see fit, subject only to definite university restrictions prescribed by law."
